RE: Far West Pump

To Whom It May Concern:

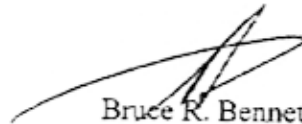

In the past 2 ½ years I have used Far West Pump for all my well needs. They have successfully and cost effectively worked in the following areas for me:

Salero Ranch, AZ
Tubac Country Club, AZ
Tumacacori, AZ
Carmen, AZ
The West Frontage Road between Tubac and Rio Rico

Not only has Far West done a number of wells and equipment, but in one case a well I own that they did not install went down and upon my call to Far West at 7:00 a.m., by 10:00a.m. they had a technician out and he quickly got my well back up and running.

On the last four wells, we did not even go out to bid because our confidence level in Far West is that strong.

Sincerely,

Bruce R. Bennett du Pont
