

November 1, 2001

Mr. Clark Vaughn  
FARWEST Pump Company, Inc.  
2968 West Ina Road PMB 272  
Tucson, Arizona 85741

Dear Sir,

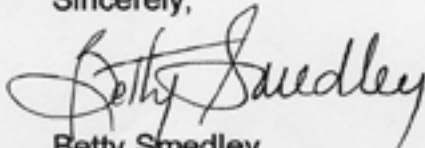

You should be proud of the people that work for you and their dedication to their jobs. The first young man showed up with the rig to lift out the pipe and was done (doing the work of pulling the pipe and putting it back down by himself) in no time at all. Then when he needed help another young man showed up to help him and between the two of them they rigged up the water system, including water holding tanks, in an efficient manner. Thank you for sending them so that we could all have water on Monday (10/24/01).

Ed has now put a concrete pad under the tanks and I am ready to return your Fiberglass Tank Pads but do not know where to return them. Please let me know on this.

Enclosed is a check for \$3000.00 with another check to follow on the first of December for the remainder of what we owe you. Thank you for letting us extend our payment in this manner.

Thank you for your help in getting water for us in a timely manner.

Sincerely,

Betty Smedley  
P.O. Box 11541
